Thank you, Forrest.

This should give us enough to get started with. We are meeting with TT on Monday and can share this for their initial thoughts.

Subject: EPA contractor assistance for State of New Mexico Nutrient Framework Technical Support

Katie and Katharine -

As a follow-up to your comments on the proposed statement of work for the State of New Mexico Nutrient Development Thresholds, I've added a bit more language (highlighted in yellow) providing additionally background information regarding a past data base developed by Tetra Tech on the same contract as TO 79 and the incremental funding of the project as money becomes available, i.e., we are anticipating receiving Regional TMDL dedicated funds in the July/August time frame but presently with no guarantees.

[attachment "New Mexico Nutrients Technical Direction Draft.docx" deleted by Katharine Dowell/DC/USEPA/US]

Today is my last day prior to leaving on vacation for a two week period with my return of Monday, 2 July 2012. However, unless resolved today which I don't anticipate happening, I will be monitoring my work email while on vacation and will follow-up on any further clarifications and recommended edits. Furthermore, while out of the office, if you should need to speak to me, please feel free to contact me on my mobile (214) 417-6597. Since we will be in various National Parks where mobile service may be poor, if I shouldn't answer please leave a message and I will return your call as soon as possible.

Lastly, I've mentioned the possibility of the TO to Tetra Tech and thus they are anticipating the award.

Cheers

Forrest B. John EPA-Region 6 Dallas, Texas (214) 665-8368 (214) 665-6689 (FAX) e-mail: john.forrest@epamail.epa.gov

"Far better it is to dare mighty things, to win glorious triumphs, even though checkered by failure, than to take rank with those poor spirits who neither enjoy much nor suffer much, because they live in the gray twilight that knows not victory or defeat." \sim Theodore Roosevelt

"...and 'tis our fast [first] intent to shake all cares and business from our age [of our state]; Conferring them on younger strengths, while we unburden'd crawl toward death..." $^\sim$ William Shakespeare's King Lear, Act I

"In every free and deliberating society, there must, from the nature of man, be opposite parties and...dissensions and discords;..." $\tilde{}$ Thomas Jefferson, 1798
